

REMARKS

Consideration of the above application as preliminarily amended is respectfully requested. Initially, the title of the application was amended by the Applicants during the International Phase of this application by way of an Article 34 Amendment. The International Preliminary Report on Patentability includes an annex sheet with a new cover page for the application which contains the amended title. Applicants wish to ensure that the amended title is made part of the U.S. National Phase application and therefore repeats the same amendment to the title herein. In addition, the specification has been amended to include the requisite reference to the international application and its priority application. Also, claim 7 has been amended in order to remove its multiple dependency. The multiple dependencies have been broken out into new claims 9-13. No new matter has been added.

The Commissioner is authorized to charge any additional fees that may be required to Deposit Account No. 50-0320.

Respectfully submitted,
FROMMER LAWRENCE & HAUG LLP
